Education

Bachelor of Science, Computer Science. GPA: 7.61

Expected Graduation: Apr 2025

Dr. Babasaheb Marathwada University.

Courses: Data Structures & Algorithms, Java OOP, C/C++, Web Development, Computer Networks, Data Analytics.

Projects

Challenging project - ReactTube - [Github](#), [video Demo](#)

Aug 2024

- I have developed ReactTube, a highly scalable and high-performance video streaming platform using React.js, Redux, and TailwindCSS.
- Spearheaded the implementation of a debouncing mechanism to optimize search performance, significantly reducing the number of API calls. Responsive design. Used a config driven U/I.
- Designed the platform to be responsive with both dark and light color themes, ensuring an engaging and accessible user experience.

Recent project - ReactFlix – [Live](#), [Github](#)

Sep 2024

- Developed ReactFlix, a real-world, high-performance video streaming web application modeled after Netflix.
 - Utilizing React.js, Redux, and TailwindCSS. Focused on gaining hands-on experience with advanced web technologies.
 - the project includes robust user authentication and a responsive design.
 - The platform's responsive layout and intuitive interface deliver an exceptional user experience across various devices.
-

Skills

Programming Languages

- JavaScript, Java, Typescript, C++, SQL.

Other

- ReactJS, NodeJs, Angular, Git, HTML, Tailwind CSS, Bootstrap, Spring Boot, MySQL, DSA, Redux, REST API, Hibernate, Operating system, Web Development, App Development, Communication.
-

Certifications

Certified Java Developer from Java by Kiran institute Pune – Oct 2021.

Web development internship certificate by CodSoft – Feb 2024.
